the main action of the

(over)

Excellent for Foundation Planting, Row Groups, Terraces and
Conifer Sides. Splendid where permanent effects are wanted
without obstructing the view.

			Feet	Each	10
50	Platanus Juniper (Spreading, Silvery Green)	B&B	2-3	\$3.75	\$35.50
10	Sabina Juniper (Low, Deep Green)	B&B	1½-2	3.00	25.00

30	" " " " " " "	B&B	1½-2	1.85	13.50

Excellent for borders to add contrast to flowering shrubs.
 Fine for corners to give accent and add height to plantings
 of Creeping or Low Growing Asters. Good for sentinels or
 markers at each side of entrance steps, windows, or in garden.

TALL GROWING VARIETIES

For planting in masses, heavy screens, windbreaks, high hedges, or small groups to frame a vista. Also for single specimen planting, where an imposing specimen is wanted to carry out some special effect.
Average height 30 to 60 feet at maturity.
